

Motivation letter

- I. Objectives of the admissions process.
 - Select the right students to guarantee the programme's success in the long run.
 - Define the desired student profile for each academic program.
 - Evaluate and analyze the student interests, dreams and aspirations.
- II. Summary steps to follow.
 - Prepare the information you want to share.
 - Submit the letter to the admissions [link](#).
- III. Type of information required.
 - Personal information.
- IV. Deadline to complete the process.
 - The dates to complete the registration process are specified on the program [web site](#).

Instructions:

The first thing you should keep in mind is that it is a document aimed at capturing the attention of the reader and convincing him. To do this, you must justify, both personally and professionally, what leads you to apply for that position. Its objective is to show that you have a real interest, your journey is similar to what is being sought and you know how to argue for it.

Make a unique motivation letter, as it is for you the opportunity to which you are aspiring. To make your task easier, ask yourself questions such as: what would you do if you succeeded? Why would you like to be in that center or institution? What would you contribute?

Remember to attach this letter of motivation in the link on the admissions and registration page so that it can be considered.

If you have questions, you can write to mim.cems@uniandes.edu.co with the subject MIM - CEMS
